About Me

Result driven Software Development professional with 4+ years in software testing, automation, and quality assurance. Proven success driving process improvements, mentoring teams, and ensuring high quality, compliant software launches. Skilled in Agile, BDD, and CI/CD practices with strong cross functional collaboration skills.

Experience

Quality Consultant / Release Coordinator

08/2025 - Present

Tandem Diabetes Care | Lawrence, KS (Remote)

- Introduced Behavior Driven Development to mobile app teams and formed a plan to implement into teams workflows.
- Partnered with Quality Engineers and Team Leads to improve documentation practices.
- Championed Ticket Review meetings to ensure software defects are thoroughly documented and resolved.

Software Test Engineer

07/2024 - 01/2025

Tandem Diabetes Care | Lawrence, KS (Remote)

- Designed and implemented a restructured test strategy, improving automated test performance and maintainability.
- Partnered with Test Automation Engineers to expand automated test coverage across key features.
- Delivered training sessions on testing methodologies, tools, and best practices to new hires and junior testers.

Sr Software Tester

11/2023 - 07/2024

Tandem Diabetes Care | Lawrence, KS (Remote)

- Led testing efforts for multiple software launches in domestic and international markets.
- Conducted root cause analysis for critical defects, implementing preventive measures to reduce production issues.
- Mentored junior testers in test case creation, defect documentation, and automation techniques.

Software Tester II

02/2022 - 11/2023

Tandem Diabetes Care | Lawrence, KS (Remote)

- Introduced feature files for human readable requirements and test writing, improving collaboration with automation engineers.
- Championed 3 Amigos Agile meetings, strengthening communication between product, engineering, and testing teams.
- Assisted with early adoption of Cypress test automation, reducing reliance on manual testing.

Software Tester

02/2021 - 02/2022

Tandem Diabetes Care | Lawrence, KS (Remote)

- Executed manual test cases and documented defects across multiple platforms.
- Collaborated with developers and product owners to clarify requirements and improve test coverage.
- Gained experience with Agile methodologies and participated in sprint ceremonies.
